

Etch your own fireworks!

Colour all over a piece of card in different colours with bright crayons.

Older children could arrange the colours in stripes, circles etc. but making sure that the whole card is covered.

Cover the page in black poster paint and allow to dry.

Carefully use a lollypop stick to scrape away some of the black paint in a swirly motion to reveal the colours below.

Be careful not to press too hard or you will also scrape away the coloured crayon.
