

## Magic ink

You will need:

- Lemon
- Water
- Small plate
- Toothpick
- White paper
- Lamp

Squeeze the lemon juice into a small plate and add a few drops of water.

Dip the toothpick into the lemon juice mix and write a message on the white paper. When it dries the writing will be invisible.

Heat the paper by holding it over a lamp with the writing side down. The invisible ink will slowly turn brown and your writing will magically appear on the page!
