

# Bug Hotel

Going on a bug hunt and creating a bug hotel offers lots of opportunities to explore and to discuss nature and the environment.

You can make your bug hotel out of materials you have at home or in your garden such as old plant pots or half a plastic bottle, and fill with bug friendly bits and bobs of different shapes and sizes for insects and bugs to crawl into such as sticks, wood, bark, leaves, stones, flowers, grass etc.

Once you have opened your bug hotel just wait for the bugs and creatures to move in!
