

Shadow Drawings

You will need:

- sheets of paper or old wallpaper
- colouring pencils
- your favourite toys
- sunshine (or a torch)

On a sunny day line up your favourite toys on a sheet of paper and draw around their shadows.

This is a fun way to improve your drawing skills, colouring big shadows and small shadows (depending on the time of day), as well as enjoying some fresh air in your garden.

You can also try this inside using a torch.
