

Word Association

Gather your family together for this fun and simple word association game.

Player one starts off by saying a noun, for example, 'table'. Player two must then quickly say the first associated word they can think of such as 'chair', player three might add 'cushion', and so on.

This game can be made more challenging by adding clapping and tapping (two taps on the knees, two claps in the air) between each word as below:

Table, tap-tap, clap-clap; table-chair, tap-tap, clap-clap; chair-cushion, tap-tap, clap-clap, and so on.
