

1

Splat!

You will need:

2

- water balloons or a spray bottle
- chalk and a marker

3

- Fill your water balloons and gently write a question on each with your marker, e.g. $2 + 2$.
- Draw chalk circles on the ground with each containing an answer to one of your questions.
- Pick a water balloon, answer the question and use the balloon to Splat! the correct answer.
- If you don't have water balloons you could use spray bottles instead.
