

Stair spelling

This grammar/spelling and PE activity can be adapted for your child's age - examples for older children are on the left-hand side of the photo and for younger children on the right.

Use your child's grammar and spellings and ask them to say or write a sentence or a word using the cards.

Children can run and grab a word or letter each time or knock one over using a random object.

Can they use more than one of the words or letters to build their words or sentence?
